ART IN THE LIBRARY

The Library is currently showcasing the photography of local artist Ron E. Mills. Mr. Mills has been producing his unique photographs of plants, animals, architecture, and people for the past three years, and his works hang in private collections and galleries throughout the South and Northeast. The Mills exhibit, consisting of 35 distinctive images, will be on display in the Medical Library through September 24th.

The Library will host the Hoover Watercolor Society's annual Juried Small Painting Show this fall. The show will open with an awards reception in the Library on Sunday, September 28, from 2:00 to 4:00 p.m. The public is invited to this event, and valet parking will be available. The artwork will continue to be on display in the Library until November 3.

LaRHIX PROVIDES DYNAMED

LSUHSC-S faculty, staff, and students now have access to DynaMed, a point-of-care database that provides clinically organized summaries of almost 3000 topics. This access was made possible through funding from the Louisiana Rural Health Information Exchange (LaRHIX), a network formed by the Louisiana Rural Hospital Coalition and LSUHSC-S to support Louisiana's health information technology initiatives in rural areas. LaRHIX Executive Director Donald E. Hines, M.D., collaborated with the Library to provide this access. LSUHSC-S affiliates can access DynaMed through the databases menu at the Library website:

<http://lib.sh.lsuhs.edu/databases/databases.php>.

THEN AND NOW...

Early 1970's:

2008:

The Library's resources have changed, but it continues to be a popular place for studying!

DID YOU KNOW?

- Wireless printing is now available in the Library for students using their own laptops.
 - The Library provides access to over 500 electronic books. A list by subject and by title is available at the Library website: <http://lib.sh.lsuhsu.edu/ebooks/ebooks.php>
-
